

# Natural Gas Logs & Fireplaces

Clean · Efficient · Reliable. Gas. It's a Natural.™

## THE NATURAL GAS ADVANTAGE

Natural gas is the solution for the fireplace – Get all the warmth and charm of a glowing fire without the hassle of hauling wood or cleaning up ashes. Today's ceramic natural gas logs look more like real wood than ever before, they use less energy and provide more warmth and comfort than logs made from concrete or clay.

Choose from an array of natural gas logs or an entire natural gas fireplace unit, whatever suits your home and your lifestyle. Depending on the model you choose, natural gas logs and fireplaces offer wall thermostat controls, push-button controlled heat, operation by a hand-held remote and instant on-off control.
